This application contains claims directed to the following patentably distinct species of the claimed invention: the species of Figure(s) 1-6 versus that of Fig(s). 7-10.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, AND A LISTING OF **ALL** CLAIMS READABLE THEREON (**NOT**, FOR EXAMPLE, "AT LEAST CLAIMS..."), INCLUDING **ANY CLAIMS SUBSEQUENTLY ADDED**, AND IF THE AMENDMENT OF ANY CLAIMS RESULTS IN A CHANGE OF THE SPECIES THEY READ UPON, THAT TOO SHOULD BE INDICATED. FAILURE TO DO SO MAY RESULT IN A HOLDING OF **NONRESPONSIVENESS**. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

The elected species is limited to the features set forth in the elected figures, and does not include features not illustrated in those figures, or illustrated in other figures. Accordingly, applicant should review all claims to ensure that all features of the elected species are properly illustrated, as required, in order to avoid a holding that an unillustrated feature does not form part of the elected species.

During a telephone conversation with attorney Popa on 5-26-05 an election was made without traverse to prosecute the species of Fig's. 7-10, claims 8-16. Affirmation of this election must be made by applicant in responding to this Office action. Claims 1-7, 17 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to non-elected species.

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

This application is in condition for allowance except for the presence of claim(s) 1-7, 17 to (a) species non-elected without traverse. Accordingly, claim(s) 1-7, 17 (has/have) been cancelled.

Otherwise proper claims to nonelected species, dependent on allowed generic claims, may usually be added by Rule 312 amendment, provided no independent claims to nonelected species are also added.

The following is an Examiner's Statement of Reasons for Allowance: The prior art does not show as obvious the combination of claimed structure and functions of claim 8, including plural subframes.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-2168. Should that communication be unsuccessful, please obtain the name of the receptionist before contacting the examiner.
